

# Meddygfa Lansdowne Surgery

## Fees for Non-NHS Services 2017 - 18

The NHS does not cover all services that patients may want or need. Some services can only be provided as a private service and these are paid for by the patient (or sometimes an employer or insurance company). All the items below need to be paid for in advance. Some require appointments and some can be done through the post/by collection. Please ask at the reception desk for further details.

We only accept payment by cash and aim to complete reports and forms within 28 working days. If your requirement is more urgent please discuss with Reception but be aware charges are increased due to the disruption to our clinicians' other work.

|   |  |  |
|---|--|--|
| <b>Certificates &amp; Letters</b>               | Private Sick Note  | £25  |
|   | General Letter   | £25  |
